WELCOME

to the FSA Cooperative Purchasing Program Buyer's Guide

For more than three decades, the Florida Sheriffs Association (FSA) Cooperative Purchasing Program (CPP) has helped public agencies simplify procurement, save time, and maximize taxpayer dollars through competitively solicited contracts. What began as a purchasing initiative for pursuit vehicles has grown into one of the nation's leading cooperative purchasing programs, serving sheriffs' offices, counties, municipalities, special districts, educational institutions, and other eligible public entities throughout Florida and beyond.

Today, CPP offers hundreds of awarded products and services across a wide range of categories, including vehicles, heavy equipment, rescue apparatus, technology solutions, facilities products, tires, and more. Each contract is competitively solicited and awarded through a transparent procurement process designed to provide agencies with compliant, ready-to-use purchasing solutions.

Our mission is simple: to leverage collective purchasing power to deliver exceptional value while reducing administrative burden for public agencies. By eliminating the need for individual agencies to conduct separate solicitations for common goods and services, CPP allows procurement professionals and operational staff to focus more time on serving their communities.

The Buyer's Guide is designed to help you navigate available contracts and connect with awarded vendors. Inside, you'll find contract information, product categories, and item information to support your procurement needs.

How to Use This Guide

- Browse contracts by category to identify available purchasing solutions.
- Review awarded vendor information and product offerings. Contact vendors directly for quotations, demonstrations, or product information.
- Reference contract numbers and ordering instructions when making purchases.
- Visit the FSA Cooperative Purchasing Program website for the latest contract updates, pricing information, and purchasing resources.

Every purchase made through the FSA Cooperative Purchasing Program **helps support** the Florida Sheriffs Association's mission of enhancing public safety across Florida. Through CPP, participating agencies gain access to competitively awarded contracts while contributing to initiatives that support training, officer safety, and collaborative public safety efforts statewide.

Thank you for your participation in the FSA Cooperative Purchasing Program and for allowing us to serve as your trusted cooperative purchasing partner.

Megan Taber

Director of the Cooperative Purchasing Program

Fun Fact
A small agency gets access to the same competitively solicited contract as a large one.
Cooperative purchasing lets agencies benefit from aggregated demand regardless of their individual purchasing volume.
